The screenshot displays the IBM Cognos Analytics interface. The main workspace shows a relationship diagram titled 'Explore data relationships' for the 'DHL\_Facilities Data prep' dataset. A search bar contains 'MATCH\_STATUS'. A curved purple line connects a node labeled 'MATCH\_STATUS' to a node labeled 'PLACEMENT'. Below the diagram is a 'Relationship diagram' legend and a zoom slider ranging from 10% to 100%. On the left, a 'Cards' panel shows a 'Data relationships' card with a network diagram icon. On the right, a 'Select a visualization' panel shows a list of visualizations related to 'MATCH\_STATUS', including 'MATCH\_STATUS', 'From Intersect', and 'OK'. Below this, a bar chart titled 'Y by MATCH\_STATUS colored by ZIP' is displayed, showing data grouped by MATCH\_STATUS and colored by ZIP code. The bar chart has a legend and an 'Add +' button.

The screenshot displays the IBM Cognos Analytics web interface. The main area shows a relationship diagram titled 'Explore data relationships' for the 'DHL\_Facilities Data prep' dataset. The diagram features a central node labeled 'OBJECTID' connected to three other nodes: 'Y' on the left, 'STATE' on the right, and 'X' at the bottom. A search bar at the top of the diagram area contains the text 'OBJECTID'. To the left of the main area is a 'Cards' sidebar with a 'Data relationships' card. To the right is a 'Select a visualization' sidebar with two entries for 'OBJECTID'. At the bottom of the main area, there is a 'Relationship diagram' section with a zoom slider ranging from 10% to 100%.
